

CTC 5 Day Intensive Training Workshop

Therapeutic Work with Children The Power of Play

Dates: 23rd – 27th August 2010

Cost €500

This is an experiential training that will help anyone who works with children develop skills and gain a personal understanding of how play works as a therapeutic medium, the safety and boundary issues to consider, and explore ways to ensure that their work with children, in whatever setting and whatever the child's difficulties, has the potential to become therapeutic and/or facilitate development of emotional & social intelligence and resilience. Participants will experience a range of child centred play based interventions for themselves. We utilise and explore the use of non-directive therapeutic play, creative techniques, therapeutic stories, Sandplay and story-making techniques to connect with core, unconscious processes and facilitate the child's holistic development and provide assistance in overcoming adjustment difficulties. This will empower participants to approach their young clients, in whatever setting, from a new place where relationships will be more meaningful, empathy is truly possible and the approach more child centred.

Participants are advised not to schedule any work during the week to allow themselves engage fully in the course. Certificates of attendance are presented to each participant.

BOOK NOW – SPACES LIMITED!

Designed for;

Child-care workers, teachers, family support staff, project workers, social workers, foster carers, day-care and early education staff, therapists, psychologists, and others working with children and families.
